Sir:

a.) Introductory Comments

This application is a divisional application of application Serial No. 09/857,751 (the national phase of PCT/US99/29946). Prior to taking up the application for examination, please amend the application as follows.

- 2 -

The parent application was subject to a requirement for restriction and was restricted to group I, drawn to a compound of formula I wherein Q¹ is pyridinyl. For the instant application, the election of group II, drawn to a compound of formula I wherein Q¹ is pyridazinyl, hereby is entered without traverse. Accordingly, the claims have been amended to delete the non-elected subject matter without prejudice to its being claimed in divisional applications.

In the parent application, certain claims were objected to as improperly multiply dependent. The claims have been amended to obviate this basis for objection.

In the parent application, Claims 1-16 were rejected under 35 U.S.C. 112, second paragraph, for stated reasons. Claims 1-3 and 13 have been amended to obviate the bases for rejection. Claims 14-16 are cancelled in this preliminary amendment; so the issue is moot with respect to those claims.
